

OUR COMPANY

Witnesses, et al. is a single source, cost-effective solution for law firms seeking specialized medical experts to provide case reviews and opinions (civil, criminal, plaintiff, and defense). If done correctly, physicians can make a **significant** amount of additional income as an expert, with minimal effort; and that's what sets us apart from other service companies in the market.

Recognizing the true value of your time, our experts enjoy the benefit of having a dedicated and highly experienced medical/legal coordinator assist them throughout the entire process, from case selection to disposition.

As a Witnesses, et al. expert, you are only presented with cases tailored to your specialty and expertise. Upon acceptance of the case, your coordinator will organize the records and provide you with a medical summary/chronology, allowing you to focus only on your opinion, leaving the coordination and administrative tasks to us.
